Our Mission

2012-13

To consistently provide world class cuisine and experience at an affordable price.

To create a dining experience whose uniqueness lies in its elegance and refinement which is brought alive by caring and personalized service in a warm and vibrant environment.

Chairman's Message

We are delighted to share with you the news that your company fared profitably in the financial year 2012-13 even in the midst of rough macroeconomic headwinds and intensifying competition, thanks to a visionary foundation and strong business model, both of which kept us poised to seize the attractive growth opportunities that came our way.

Your company has stayed focused on building on our strengths even while

facing down challenging conditions in the market and economic environment.

Fortunately, we have not had to scout for new growth paths; enormous opportunities have beckoned. Our proven and powerful brands, backed by a capable high-performance organization determined to rapidly expand its presence, have been like magnets. Your company ended the year with 82 restaurants and 14 confectionaries (including franchisees) across India. During the year, the company opened 14 restaurants including ten Mainland China, one Oh! Calcutta, one Machaan and two Sigree / Sigree Global Grill.

Our total income stood at Rs. 23,608 lakhs, up 18.7%, while EBIDTA at Rs. 4,591 lakhs was up by 14.2%. We recorded a profit after tax of Rs. 2,341 lakhs, up 35.8%.

We believe that improving restaurant operations and enhancing the customer experience are key to increasing our profitability. We have established a research-based marketing process which is focused on driving restaurant sales and traffic while targeting a broader consumer base with more inclusive offerings across age groups.

Mainland China, our flagship brand, continues to receive our wholehearted attention as we look towards domestic and international expansion. We have launched Mezzuna and Sigree Global Grill in all-day dining formats. While offering more cuisines to a wider audience, we remain focused on our major revenue contributor while continuing our efforts to establish and enhance market share in other categories and dining formats.

At the core of our identity is the philosophy of five-star products at non-five star prices.

While we have not changed our brand positioning, our menu certainly has evolved and fine-tuned over the years in sensitivity to our guests' needs.

Responding to the current conditions in the market and the economy, we have adopted a multi-pronged approach in which in addition to adding to the number of restaurants under development, we are continuing to innovate through menu, marketing and operational initiatives.

Focusing on our core growth markets and building critical mass is one of our visible strengths. We have delivered on our expansion plans, and are focusing our efforts on our most developed growth markets where we already have a strong footprint. Our menu is always evolving as we leverage our research and development capabilities to respond to market trends and the needs of our guests. Menu innovation is the norm, among the best in our industry worldwide and we have strived to maintain this standard.

We have a two-decade-long track record of same-store sales growth. In recent years, challenging economic conditions have led to weakened consumer confidence and intensified competition. Our response has been to invest in further improving the guest experience, a strategy that has helped sustain our positive same-store sales record.

Recent research commissioned by your company revealed that Speciality Restaurants and especially Mainland China has huge brand equity amongst the Indian diaspora settled abroad. Spurred by this, we have been actively evaluating overseas markets.

We believe that there is a brilliant future awaiting Speciality Restaurants wherever there exist Indian diaspora with a discernible footfall.

We also believe that once this revenue stream starts kicking in and our efforts fructify, we will be able to generate a great deal more because the average checks internationally tend to be high, with the promise of good returns on the investment of any capital. Fine dining is greatly evolved in the international stage where we hope to carve a niche for ourselves. The process is meticulous and requires careful groundwork. Results should not be expected overnight or in the short term, but there is the certainty that when they do come, they will be durable and significant.

With an operations strategy designed to drive best-in-class restaurant operations and improve friendliness, cleanliness, speed of service and overall guest satisfaction, we drive long-term growth. We have uniform operating standards and specifications related to the selection of menu items, maintenance and cleanliness of the premises and employee conduct. We closely supervise the operation of all of our company restaurants to ensure that standards and policies are followed consistently. We require all our restaurants to complete initial and ongoing training programs provided by us.

Given the global economic turbulence the world over, we expect the operating environment in the year ahead to continue to be volatile, even as we notice the early signs of a modest economic recovery. We remain strategically focused on things that are within our control in this environment and raising the industry standards as we respond to our guests' needs.

Following a disciplined and comprehensive process, we have implemented a new, streamlined organizational structure to allow for more efficient, scalable growth in the future.

This process was not easy but in the end, it was the dedication of our employees which made the journey possible. We also wish to extend our gratitude to all our stakeholders who have reposed their faith and confidence in our judgment.

We remain confident in our future, given your company's overall strategies, its strong leadership and talented employees who are delivering high quality to thousands of our guests every day. We remain, now and tomorrow, at your service.

From the Managing Director's desk

Having built the company from scratch to the listed entity it is today, Anjan Chatterjee (Managing Director) leads from the front with a hands-on style of management.

In a frank and free-wheeling in-house interview he shares his perspectives on the company's journey after its successful IPO last year and also provides an insight into the future of the company.

Key excerpts from that Interview are reproduced below :

Did the company achieve what it set out to do during the financial year 2012-13?

In FY 2012-13, our game-plan had been to stay on course, and I think we pretty much did that. The macroeconomic environment has been challenging, but we continued to innovate and respond to the challenging operating conditions through a multi-faceted approach that builds on our strengths and minimizes our weaknesses.

Having made a successful IPO, we remain committed to meeting our fund utilization plans by opening new restaurants and repaying our debt to achieve debt-free status. The Company ended the year with 82 restaurants and 14 confectionaries, including franchisees, across India. During the year the Company opened 14 restaurants, including 10 Mainland China, 1 Oh! Calcutta, 1 Machaan and 2 Sigree/ Sigree Global Grill. This year has been significant in more ways than one. Not only did we bolster our fine dining business but also ventured into areas such as Quick Service Restaurants (QSRs) and Outdoor Catering services through Mobi-Feast. The response to the new initiatives has been promising.

How is the Company responding to the challenges posed by a relatively uncertain economic environment? When will the Company undertake a price hike to boost its margins?

While there is little we can do to change the uncertain external economic environment, we have strived to innovate to grow and succeeded too. Our main growth driver is expected to be our flagship brand, Mainland China, while we introduce new brands like Mezzuna and Sigree-Global Grill. The focus is on rolling out new restaurants and given that our rollout plans are absolutely on track, we expect that to be a growth driver for us as soon as discretionary spends pick up. The new brand launches will not cannibalize our existing business and at the same time will create value.

As far as price hike goes, in line with the reduction in discretionary spending in India, Speciality Restaurants has deferred raising prices and will take a call in due course. Research tells us that people would prefer eating less, with limited quantity but more variety. So we have introduced small and regular portions, starting with Bengaluru and will be rolling this concept out on a national scale. Research informs us that lowering the portion size means tremendous cost savings for us, and is expected to translate into more orders on our menu.

We have also instituted operational measures by reducing staff and training employees to be multi-faceted to enhance productivity. We have introduced synergies on the floor to save time. Measures like iPad menus have resulted in considerable time and cost savings.

So all in all, the approach has been a 360° one with an equally strong effort at the back end in terms of enhancing productivity as we keep our expansion plans on track.

What are your plans with Mezzuna and Sigree Global Grill ? How do you see these brands shaping up in your overall portfolio?

Speciality Restaurants' flagship brands continue to be Mainland China and Oh! Calcutta. We offer a choice of cuisines and through an assortment of fresh food items focusing on high-quality ingredients, nutritional value and great flavor. Each of our brands stands for a unique cuisine where we try to retain the authenticity of the regional flavor and at the same time make it appetizing for the Indian gourmet.

Mezzuna, launched in Pune, boasts consultants and chefs from Europe and recruitment from the best Hotels and restaurants in India. Notably, it is our first foray into the all-day casual dining format which should help us attain high cover turnover as the restaurant is open longer (between 10 am and 12 midnight). The menu features a new world of dishes — Mediterranean, Moroccan, East Asian, Continental, Spanish, Mexican and Italian flavours with a fantastic range of liquor.

Sigree Global Grill, yet another all-day dining restaurant, offers a melange of fresh, grilled flavours from around the world such as Mediterranean, Oriental, Spanish, Mexican and Indian. It will have live grills with unlimited sizzling starters at each table.

The response has been satisfying and with increasing levels of promotional activities we are seeing higher footfalls.

What prompted the company to enter the outdoor catering services business ?

What is the thinking behind Mobi-Feast ?

The Outdoor Catering service is lower in terms of value compared to the fine dining segment. Having successfully established a long-standing brand equity higher up the value chain, Mobi-Feast was a natural progression. The effort is incremental effort but the margins are higher since we will cater to larger groups.

Mobi-Feast will bring together customized gourmet cuisine and a unique touch to outdoor events by offering authentic dishes that have been enjoyed by millions of satisfied consumers at Speciality Restaurants all over India. Innovative menus with multiple options including global cuisines is one of the differentiating services of this new venture of outdoor catering. With the ever-increasing need for innovation in cuisine and offerings, the catering business in Eastern India will see the Speciality Group participating actively to carve itself a decent market share in the years ahead. Backed by a robust marketing plan, the brand intends to increase the outdoor business substantially in the year 2013-14.

According to the group's investment strategy, the Central Food Processing Unit at Sankrail near Howrah would set benchmarks in the outdoor catering segment in Eastern India. The unit is equipped with a state-of-the-art bakery and confectionary, blast freezing facility, steam kettle cooking facility, central stores, loading and transport divisions.

The unique selling proposition of Mobi-Feast is to cater unique food offering from the kitchens of the leading brands in the country like Mainland China, Oh! Calcutta, Sigree, Sigree Global Grill and Mezunna with the availability of the best of Chinese, Italian, Mediterranean, Continental, Indian and Bengali cuisines. It already has a growing list of marquee corporate names as clientele and we envisage this business as a significant growth driver in the years to come.

The company has plans of launching Quick Service Restaurants (QSRs) ?

What is the progress made?

The Quick service restaurant industry comprises not just food offerings but also a delivery mechanism. While the first one remains our forte, we are scouting for partners like Just Dial for providing smooth and efficient logistics functions. One of the fastest growing industries in the Food services segment, estimated at Rs. 11,740 crores in 2013, it is expected to grow to Rs.26,835 crores by 2018 according to Technopak analysis. Another research claims that India's Quick-Service Restaurant chains business is expected to grow eight-fold to US\$ 5.6 billion by 2020 from US\$ 720 million in 2011, at a CAGR of 27 per cent.

What is the rationale behind the company looking at international forays?

What is the current status of the same?

Our strategy for establishing and expanding our global retail business is to selectively and with discipline open stores in new markets. Speciality Restaurants has become one of the most recognized and respected brands amongst the Indian diaspora. The criteria for selecting the locations include market size, competitive landscape, supply chain considerations, and the availability of suitable partners with local expertise.

At the moment we have looked at around seven locations within the United Arab Emirates which includes Doha. Within Dubai we are certainly looking at four stores, as Mainland China is a sought after brand there. At the same time, we need to take a disciplined approach to managing risks and will proceed only where a strong business case exists. By establishing a presence in new markets, we hope to set the stage for long-term growth, albeit at a pace which will be slow and only when we are sure.

With so many new initiatives up and running, how and where will Mainland China feature in the scheme of things ?

I believe that Speciality Restaurants is at a stage where we have traversed the cost curve and created a strong asset base for ourselves. The challenge here onwards is to increase the 'sweating' on these assets as it is known in the restaurant industry which is why you are seeing new brands and all day open formats. Mobi-Feast is also an application of our existing resources and capabilities, with good margins.

As far as Mainland China goes, it will continue to be our growth driver, being the largest revenue contributor. Going forward, we are also increasing the number of restaurants not only in domestic markets but also internationally where Speciality Restaurants has great brand recognition amongst the Indian diaspora.

What is your outlook for FY 2013-14 ?

While we are proud of our achievements, we have learnt never to take our success for granted, which is why three primary attributes will continue to drive our every decision and action. First, we will remain committed to our flagship brands, expand the number of stores and try to increase same sales stores. Secondly, we will exercise relevant, timely, and courageous innovation in terms of new brands, different formats and menu offerings. Lastly, I firmly believe that growing our business means a sustained effort at appealing to and serving more and more customers by leveraging the brand equity that we have created thus far. This would makes us an enduring organization and I think you will agree that that is key to our ongoing success.

MANAGEMENT DISCUSSION AND ANALYSIS

Overview of the Indian Economy:

The World Bank recently pegged India's GDP growth forecast at 6.1% for FY 2013-14 and is expecting a gradual recovery. According to the World Bank's latest India Development Update, growth is expected to further increase to 6.7% in the next fiscal year. In recent months, both wholesale price index-based inflation and trade deficit have declined. Inflation fell below 6% and is now within the Reserve Bank of India's (RBI's) stated comfort range. With the stabilization of the rupee and expectations of a good monsoon, inflation is expected to decline further.

The current account deficit, which had touched a record high of 6.7% during the period between October to December 2012, is also expected to narrow further in the medium term. The fiscal deficit too, is expected to decline as the Government has renewed its commitment towards fiscal consolidation.

The WPI and CPI inflation appears to be softening in the current fiscal, thus paving the way for RBI to cut interest rates. Falling interest rates would not only aid growth but also improve the overall sentiments in the economy as various sectors of the Indian economy are directly and indirectly related with the movements in interest rates.

A stronger fiscal stance and further improvements in economic activity could facilitate additional rate cuts.

Overall then, there could be greater opportunities for businesses.

The Fine Dining Industry

The 'India Food Services Report 2013', prepared by the National Restaurant Association of India (NRAI), estimates the current size of the Indian food service industry at Rs 2,47,680 crore in 2013. It is projected to grow at CAGR of 11% to Rs 4,08,040 crore by 2018.

The Fine Dining segment as per the NRAI and Technopak research, stands at Rs. 500 crores in 2013 and is expected to be Rs.1010 crores by 2018 translating into a CAGR of 15%. As per the report, the fine dining segment is innovating with customizes menus, chef customer interactions etc as customers are willing to pay a premium for high quality food services and experience. Metros and mini Metros dominate this market.

Other Key Industry Segments

In terms of market segment, quick service restaurants (QSR) and casual dine-in formats account for 74% of the total chain market. Cafes make up for 12% while fine dining, frozen desert/ice-cream and pubs, bars, clubs and lounges (PBCL) comprise the rest.

NRAI estimates that the chain and licensed standalone industry will contribute estimated Rs 11,500-11,900 crore in 2013. This projection more than doubles to Rs 24,600-25,000 crore by 2018. The key growth drivers and emerging trends indicate an increasing share of delivery and take-away formats with a focus on convenience.

The hotels & restaurants industry as of today is at the threshold of entering a dynamic market. That is primarily because the industry has witnessed significant growth in recent times thanks to factors such as rise in demand for a global menu, increase in disposable income, spiralling popularity of eating out as a regular form of entertainment and so on.

It is this movement in the market that has been attracting leading hotel and restaurant chains towards seeking a bigger share of the business pie. The industry is witnessing heavy PE (private equity) investments.

Restaurants in India have become places for social gatherings and therefore, independent outlets are dominating the industry in India. Roughly, there are 1.5 million eating outlets in India and the number is expected to grow rapidly in the near future. The overall Indian restaurant industry is growing at a rate of 5 to 10% per annum.

Business Environment

Fine dining restaurants allow customers to experience the celebration of food that is aesthetically cooked to arouse their taste buds with visually appealing food portions. Your Company operates in the Fine Dining segment and as India progresses demographically invoking its affluent and middle-class population to drive consumption, the entire phenomenon will enable the restaurant business to soar further. An industry as vast as this provides large direct and indirect employment generates revenue for the Government. Your Company has also forayed into Outdoor Catering and is firming up plans of entering the Quick Service Restaurants Segment.

Opportunities

- With the high standard of living and the change in the lifestyle of people, more and more consumers are patronising various restaurants. Restaurants have evolved as places for social gatherings and outings resulting in good opportunities given the evolving dining culture.
- With an increase in the number of Indians going abroad and the flurry in domestic tourism, Indian have enjoyed global experiences and cuisines from across the world. Resultantly, Fine Dining restaurants are preferred as they offer better ambience, service and presentation, often on par with global standards.

- With the young population in the urban areas now having access to large sums of disposable wealth and the advent of the many cuisines, the food trend has shifted from traditional food to upbeat cuisines of the world.
- Changing consumer lifestyles and preferences with an increasing number of women in the workforce, increase in double income households, rising disposable income, growth in nuclear families particularly in urban India, increasing urbanization and higher frequency of eating out, exposure to global media and cuisine, mall and the multiplex boom have all fuelled the growth of the dining business in India.

Challenges

- Given the sheer size of the Indian consumer market and the increasing spending power, it is a natural destination for fine dining companies not just from within India but also abroad. India is witnessing increased investments in the industry resulting in a highly competitive environment.
- Given the high rate of inflation, having to meet big expenses while maintain consistency in their price to compete with the traditional sector has been a challenge for most fine dining restaurants.
- Economic and market factors such as high food cost inflation, fragmented market and increasing competition, operational challenges including real estate, manpower, fragmented supply chain and regulatory concerns such as existing high taxes, burden of new taxes and over-licensing pose a serious challenge .
- The fine dining brands entering India will be tweaking their price and menu as holding on to their international price will not be an option here with the market for niche restaurant brands. This will further enhance competition.

Competitive Positioning:

Mainland China

The Company continues to enjoy the premium brand equity with Mainland China, as the expansion plan is on track and efforts to innovate and delight consumers continue. The Company continues to focus on increasing its reach geographically and tapping new areas with high potential.

Speciality Restaurants is at a stage where it has created a strong asset base. The challenge hereon is to increase the 'sweating on these assets' as it is called in the restaurant industry. With the introduction of new brands like Mezzuna and Sigree-Global Grill the Company is focusing on tapping a wider audience. The new brand launches will not be cannibalising into the existing brands and at the same time create value for the Company.

Mezzuna which has been targeted at the 24 to 35 age group opens between 10 am to 12 midnight serving continental dishes with Mediterranean, Moroccan, East Asian, Continental, Spanish, Mexican and Italian flavours with a fantastic range of liquor which is of prime importance. Its format is all-day casual dining - Higher Cover as timing is longer.

Sigree Global Grill offers a melange of fresh, grilled flavours from all around the globe like Mediterranean, Oriental, Spanish, Mexican and Indian cuisine comprise the Menu with live grills on each table. Again this is also an all-day dining restaurant and our smaller brands like Machaan, Sigree etc are expected to be merged within this.

With practically no overhead costs in this format, Quick Service Restaurants (QSRs) are a fast growing segment of the restaurant industry. The Company intends expanding through QSR with the right combination of quality food and quick delivery.

Expanding the outdoor catering is also being viewed as a growing business opportunity and initiative have already been taken to aggressively expand the company's presence in this segment. Mobi-Feast is the Company's initiative in this direction and it has seen a good start with the outdoor catering contract for the Kolkata Knight Riders Team at the Indian Premier League.

Risk Mitigation:

Inflation and Cost Pressures:

The entire restaurant industry has been plagued with rising food prices and increasing cost pressures on all fronts.

Your Company tries to pass on the increased costs by increasing menu prices, or by reviewing and implementing, alternative processes thereby facilitating cost control. Your Company is waiting for the right time to raise prices as given the subdued environment it does not wish to dampen its customer's sentiments. Further, this is a critical business decision that the management is well equipped to time correctly.

The Company is in the process of introducing small and regular portion menus at its flagship restaurant Mainland China. This is based on research conducted which suggests that this will enable the company to reduce costs and yet get higher orders from the menus. Once the implementation here is successful, the Company will be open to extending this concept to its other Restaurant Brands too.

Increasing Competition:

The restaurant business is highly competitive in terms of price, service, location, nutritional and dietary trends and food quality, and is often affected by changes in consumer tastes, economic conditions and traffic patterns.

The Company has launched several brands and commenced operations for its all day dining operations to cover a wider audience. While Mainland China continues to be the flagship brand, the Company intends tackling competition with better presence and wider offerings.

Operations:

Operationally, the restaurant business continues to remain a difficult one to handle and efficient supply chain management, sourcing and presentation etc remain integral to its success.

Your Company has close to two decades of operations in the industry and all along it has made efforts to strengthen its processes to achieve better efficiency and optimum quality. This has culminated into extremely well laid out procedures across all its operational activities. Your Company has conducted several training programs to the employees for handling multi task skills thereby enhancing productivity. Initiatives such as introduction of electronic menus through iPAD devices etc have resulted in time and thereby cost savings.

Internal Control Systems and their Adequacy:

Across industries, internal processes control and systems play a critical role in the health of a company. An effective system of internal controls form a keystone necessary for building, maintaining and improving shareholders value and helps to enhance the overall quality of the business and enterprise. Your Company has its own internal control systems in place to ensure that all assets are protected. Your Company has adequately insured for the assets and also employees insurance policies are in place.

Risk Identification and Mitigation is undertaken by the members of the Senior Management actively and on a ongoing basis.

Financial Performance:

Accounting policy:

The Company follows the Generally Accepted Accounting Principles (GAAP) in India, applicable accounting standards and other necessary requirements of the Companies Act, 1956 for the preparation of its financial statements. b) Use of estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and differences between actual results and estimates are recognized in the periods in which the results are known / materialize.

c) Fixed Assets and Depreciation/Amortization

Tangible Assets are stated at their cost of acquisition less accumulated depreciation and impairment losses.

Cost comprises of all costs incurred to bring the assets to their present location and working condition.

Assets acquired under finance leases are accounted for at the inception of the lease in accordance with Accounting Standard 19 on Leases at the lower of the fair value of the asset and present value of minimum lease payments.

Depreciation on assets is provided, pro-rata for the period of use, by the written down value method at the rates prescribed in Schedule XIV to the Act. Assets costing less than Rs. 5,000 are depreciated at 100%.

Leasehold improvements are depreciated over the lower of the lease period and the management's estimate of the useful life of the asset.

Intangible assets are stated at their cost of acquisition, less accumulated amortization and impairment losses. An intangible asset is recognized, where it is probable that the future economic benefits attributable to the asset will flow to the enterprise and where its cost can be reliably measured. The depreciable amount of intangible assets is allocated over the best estimate of its useful life on a straight-line basis.

The company capitalizes software costs where it is reasonably estimated that the software has an enduring useful life. Software is depreciated over the management's estimate of its useful life of five years.

Trademarks are amortized uniformly over a period of five years.

d) Impairment of Assets

An asset is considered as impaired in accordance with Accounting Standard 28 on Impairment of Assets when at the balance sheet date there are indications of impairment and the carrying amount of the asset, or where applicable the cash generating unit to which the asset belongs, exceeds its recoverable amount (i.e. the higher of the asset's net selling price and value in use).
